A few days since Mr. John Hodgdon, of South Lewiston, while attempting to put out a fire in a brush heap on his premises, was siezed with an aploplectic fit and fell into a blaze. Assistance was speedly rendered Mr. Hodgdon else he might have roasted alive. He was quite badly berned about the face and neck, but his injuries are not regarded a rious.

Two severe accidents occurred in Sharp & Ketchum's steam will in Monticello, two days last week. Mr. Jefferson Morrison had the flugers of his left hand cut off below the mails the first day, and the second day Mr. Alfonzo Cramp had the thumb and two fore fingers of his left hand severed below the knuckles. The father of Mr. Cramp helng confined to the house with a cancer in his face, and he being their only support, makes the accident doubly severe.

There was an exciting scene in the Maine Central depot at Brunswick, Monday, when the Boston train pulled out of the depot. A woman bound not to be left attempted to board a car when the train was moving at considerable speed and was caught by a pullman en conductor who held her back despite her struggles and quickly directing some by-stunders to seize her. He succeeded in jumping on the train and stopping it by pulling the rope. The woman, who fought desperately to get under the wheels, was then assisted to her car.

AN INSIDE LOOK:

Like a small boy who curiously takes apart a watch to see its inside, the Journal must dissect the Fair, to see how it works —who pulls the strings—who does the work. It is all well enough to watch the casy and pretty motion of the show. Exercivedly sees what there is to see, in all the nooks and corners of the grounds, but few know the "why" or the "who." It may be said now, however, that the belief is gaining ground among the men who are willing to throw aside their preferences and preudices, hat Blaine has understand. dices, hat Blaine has undoubtedly scored a vict ry. It was, of course, unreasonable to look for as arge a vote in the State as was polled in the Presidential election of 1834; lonsequently it would have been unreasonable to look for the 20,000 Republican inajority for that year. Neither would it have been entirely fair to look for a repetition of the 15,000 Republican plural ty given in the Gubernatorial election of that year, because Maine Republicans were almost as much worked up over that campaign as they were over the Presidential election that followed.

While some of our Democratic exchanges,

cans were almost as much worked up over that campaign as they were over the Presidential election that followed.

Wh'se some of our Democratic exchanges, including our "repudiated" and "useless" neighbor over the way, are trying to cover their overwhelming defeat in this State under a lot of meaningless bluster, the New York World, now recognized as one of the leading Democratic organs in the country, publishes the above despatch from Augusta sent by its special representation that Eas filed the columns of the average Democratic or an since last Monday, and advantage and that the mischlevous and their allowing and therefore the Augusta sent by its special representation that Eas filed the columns of the average Democratic or an since last Monday, and advantage and their colored voters hav! no desire to molest, and that the Republicans secored a great victory for an "off" year.

Maine appears to have gone for Blaine yesterday as it went for Governon Kensome years ago.—Washington Critic.

During a recent conversation General Butler is reported to have said in reply to the question, Can Cleveland be re-elected if renominated? "No, he has not a ghost of a chance if the Republicans nominate Blaine, or any man of National repattion."

Recollections of a Great Earthquake. Beifast Journal.

"There is nothing that will take the lining out of a man quicker than an earth-quake," remarked Capt. E. P. Cunningham, of Northport, a retired shipmaster, a few days ago. The captain spoke from experience, having been at Arica in the Belfast ship Northern Chief, at the time of the earthquake of August 13 and 14,

1868, which involved the loss of 500 lives and \$12,000,000 worth of property. The shocks were followed by a tidal wave in which the United States storeship Fredonia was wrecked, with the loss of all

nia was wrecked, with the loss of all hands; and the United States steamer Wateree and other vessels were carried ashore and stranded. The Wateree, a large iron double-ender, was carried five miles inland where the hull still remains. The Freconia was dashed to pleece on the crocks. Another ship, with two anchors down, was littled on the wave so that her anchors were clear of bottom and she then apun round and round like a top. The only vessels that escaped were the North-ern Chief sand another Maine ship commanded by Captain Watts, of Rockiand. They took a sheer off instead of on shore, and as Captain Connaingham describes it, went out to see as though a dozen tugs had them to tow. They were carried tar or twelve miles eat and received no injury. The footised islend of Alacran, which defends the harbor of Arica, was submerged three times, all the garrison perishing. The first wave, which rose to about 49 feet, was succeeded by three or four others.

of less height. Among the curious effects of the earthquake in the vinnity of Arica was the opening of the earth, and the disclosure of a large number of musumles, which had been buried in sand in a sitting posture, facing the sea, in a countery covering a large area. Captain Cunnir glaun, who visited the spot, said the heads sticking up made it look like 4, field of potatoes.
